### **SemTech 2010 Announces its Prominent List of Sponsors for its Sixth Annual Conference and Tradeshow**

*SemTech is the world's largest semantic technology conference and will host over 200 sessions and speakers focusing on linked data, search, marketing and advertising, healthcare, enterprise data, financial services, open government, intelligence, and publishing. Limited sponsorship opportunities are still available.*

Los Angeles, CA (May 17, 2010) – Prominent companies from across the globe will participate in SemTech 2010, the 6th annual conference and Tradeshow taking place at the San Francisco Hilton in Union Square, June 21-25, 2010. SemTech is the preferred industry platform for exhibitors to announce product launches, publishing deals, and breaking news.

Attendees will have the opportunity to view products and services from top industry developers. This year's prestigious list of sponsors include: Ontotext, Oracle, Revelytix Inc., Cambridge Semantics Inc., Atigeo, Franz Inc., TopQuadrant, Zepheira, Raytheon BBN Technologies, Saltlux Inc., IBM/Ontoprise, IntelliDimension, Talis, Thomson Reuters OpenCalais, Semantifi, True Knowledge, Clark & Parsia LLC, Knowledge Based Systems Inc., Expert Systems, SYSTAP, LLC, Sandpiper Software, Semantic System AG, and Orbis Technologies. Limited sponsorship opportunities are still available. For more information about sponsorships, exhibitor space, or program advertising, please contact Steve Bastasini at [steve@semanticuniverse.com](mailto:steve@semanticuniverse.com) or (415) 740-5528.

"SemTech is about bringing to life the virtual connections we make all year via our developer community, Twitter, our partner network, and more," said Tom Tague, OpenCalais Initiative lead, Thomson Reuters. "It's our most important conference, and we're thrilled to be introducing still more publishers and partners to the event this year."

SemTech represents a full spectrum of business, government, and consumer activity within the field of semantic technology and brings together the most practical and advanced solutions in the industry. This year's conference will be the most extensive to date. Over 1,200 attendees are expected, including industry experts, researchers, analysts, content providers, developers, and technology enthusiasts who will listen to top

presenters and industry leaders speak about the hottest trends in semantic technology today.

Technical and business-oriented sessions will be offered at beginner, intermediate, and advanced levels. Topics will include:

- Linked Data and Open Government
- The Social Fabric of Semantics
- Semantic Web Technologies at Nokia
- The Enterprise Data Management Council Semantics Repository Case Study
- Ontology-Driven SOA Governance
- Semantics in Publishing
- Semantics in Advertising and Marketing
- Semantics in Healthcare and Life Sciences
- An Introduction to Semantic Web Technologies

### **About SemTech**

SemTech is the world's largest conference on semantic technologies. It is the only event focused on the commercialization of semantic technologies, bringing the most recognized names, knowledge, leadership, and innovation in the semantic community together in one location. SemTech is owned and operated by Semantic Universe, the semantic community's trusted information resource. For more information please visit [SemanticUniverse.com](http://SemanticUniverse.com), email [info@semanticuniverse.com](mailto:info@semanticuniverse.com), or call (310) 337-2616.
