

2010 Semantic Technology Conference

JUNE 21 - 25 SAN FRANCISCO, CA

SPONSORSHIP
PROSPECTUS

The annual Semantic Technology Conference (SemTech) is THE place to demonstrate the applications of semantics in both business and consumer markets. The 2010 program is expanding to include some new features and marketing opportunities that will enable sponsors and exhibitors to reach your intended audience more effectively than ever before.

Marketing Opportunities Include:

- The SemTech Exhibition Floor
- Product Demonstrations
- Identity and Logo Placement
- Sponsorship
- Face-to-Face meetings
- User Groups
- Field Trips
- Hospitality Suites
- Speaking Opportunities:
 - Elevator Pitches
 - Lightning Talks and Panels
 - 60 and 30-minute presentations

SemTech Topic Areas Include:

- Business Applications
- Consumer Applications
- Data Portability
- Enterprise Semantics
- Knowledge Engineering and Management
- Linked Data
- Natural Language Tools
- Ontology Design and Engineering
- Semantic Rules
- Semantic Publishing
- Search
- Semantic Development Tools
- Semantic Web
- Semantic Marketing and Advertising
- Semantic Wikis
- Social Networks & Collaboration

Qualified Audience, Maximum ROI

Are the SemTech attendees qualified? Most of the audience has paid an average fee of over \$1,200, plus their travel costs, to attend the SemTech Conference. The attendees come from some of the world's largest, most innovative SME's organizations. They come to learn, and are serious about it.

And because SemTech is the leading venue in the world for the applications of semantic technologies, we have more buyers than any other event. This means we can put you face-to-face with these hundreds of top quality prospects at a cost of around \$60 per QUALIFIED lead. How does this compare with your current cost-per-lead? Do you have a better, more cost-effective strategy for generating hundreds of new customers in one place, at one time?

Who Attends and How Many?

The most recent SemTech Conference attracted over 1,100 people, up 15% from the year before and making it **one of the only technology events to actually increase attendance in 2009**. We're confident we will continue this growth in 2010 as we move to San Francisco.

The audience profile is indicated by the chart on Page 3. As you can see, the level of executive representation is very high, making SemTech the perfect venue for reaching influencers, decision-makers and buyers, and for developing valuable business partnerships and business strategies.

Get Face-to-Face with Qualified Buyers

The conference program offers Sponsors the following presentation options and formats:

Elevator Pitch

The Elevator Pitch is a 1-minute talk that allows anyone with a semantic product (or product idea) to pitch themselves in front of the SemTech audience, including potential investors, VCs, customers, business partners and employees.

Lightning Talk

Lightning talks are 5-minute presentations with a 10-slide maximum. We combine numerous lightning talks on a common subject into 30 or 60 minute panel sessions within the formal conference agenda.

Face-to-Face Conversations

We all know that the best conference conversations happen in the corridors, but too often these encounters occur purely by chance. You can now request a Face-to-Face conversation which means you'd like to meet other attendees who are interested in the same topics as you, and that you're organizing a get-together – maybe a lunch group or a coffee break – and we'll publish your meeting along with the rest of the agenda.

Sponsored Presentations

Vendors pay a sponsorship fee for the privilege of making these presentations, which give the greatest value in terms of presentation time and publicity. The available formats for sponsored sessions are:

Product and/or Company Showcase

A 30 or 60-minute presentation on the conference agenda.

User Group Meetings

SemTech hosts many user group meetings, usually 2-3 hours in length, although they can be as long as 2-days. Previous user gatherings have been conducted for TopBraid, Semantic MediaWiki, OpenCalais and Federal Government executives. User meetings can be scheduled before, during or after the official SemTech dates.

Field Trips

Field trips to organizations based in the San Francisco Bay area are conducted on the final afternoon of SemTech. If you would like to invite SemTech attendees to visit your company site or lab, then talk to us about a field trip.
